## WBG-Pooling-TCHP 800 grey

165 mm

**Outer Dimensions**  
1200 x 800 x 165 mm

**Height when stacked**  
165 mm

**Tare Weight**  
17,5 kg

**Temperature resistance**  
-30°C to +40°C

**Bottom**  
3 runners

**Material**  
PP

**Color**  
grey  
similar RAL 7040

**Label**  
Inmouldlabels on both  
long sides

**Static load capacity**  
4000 kg

**Dynamic load capacity**  
2000 kg

**Load capacity in  
high-bay racking**  
1000 kg

1200 mm

800 mm

## Pallet

## WBG-Pooling-TCHP 800 grey

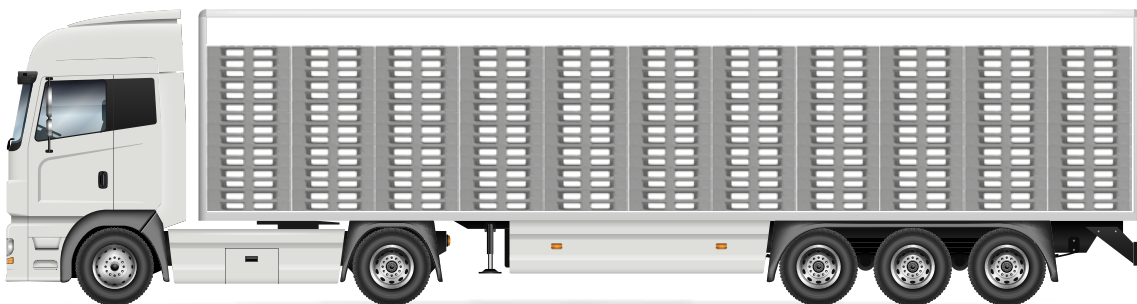

The **WBG-Pooling TCHP 800 grey** (Totally Closed Hygienic Pallet) is a robust reusable pallet designed for efficient and hygienic logistics processes. Thanks to its closed design, it meets high hygiene standards and is particularly suitable for sensitive applications.

It is made of high-quality grey polypropylene (PP) and offers a maximum load capacity of up to 4,000 kg statically and 2,000 kg dynamically. The pallet is also suitable for use in high-bay warehouses and can withstand loads of up to 1,000 kg for such applications. Integrated RFID tagging enables reliable traceability within the pooling system.

The circumferential groove is designed to accommodate compatible attachment systems and supports a secure connection as well as flexible applications. The pallet is suitable for both automated and manual handling and, as it is fully recyclable, contributes to a sustainable circular economy.
